

Raptor Question Finder

1. Cut along the dashed lines. Continue with the square piece of paper.
2. Flip paper over. Take one corner and fold it in to the center of square. Repeat with each corner. When you are done, you will have a square, with four open flaps on the top.
6. Flip the piece of paper over. Take one corner and fold it in to the center of star. Repeat with each corner. Your square will now have four flaps.
7. Flip the paper over so that the top side has square flaps. Fold the paper in half along a straight edge and crease. Open it back up. Turn the paper 1/4 (90 degrees) and fold in half again, and crease. Open it back up.
8. Put your thumb and index finger on your right hand under the two square flaps on the right hand side. Put your thumb and index finger on your left hand under the two square flaps on the left hand side. As you pinch your finger tips together, the fortune teller will take shape.
9. To work the raptor question finder, put your fingers back in the flaps. Pinch your thumb and index fingers together, then gently pull apart to open the center. Then bring the four fingers back together. Pinch together the two index fingers and the two thumbs. Gently pull apart to open the center.
